Introduction: Hi, my name is \_\_\_\_\_ and I am a <job title> here. Is it okay if I took about 10 minutes of your time to discuss the results of the screen you just completed? Let's start by talking about your responses on the screen to and explore more about your experiences with alcohol or other drugs. I'm not going to lecture you or tell you what to do about alcohol and drugs; you're In charge of you and only you can make those decisions. I just want to think with you about your use and how it fits into your life. Would this be okay?
